### **2.3.2 Teachers use ICT enabled tools for effective teaching-learning process.**

#### **Response:**

The use of recent Information Communication Technology and social media like what's app, Telegram, Youtube, Google classroom, Power Point Presentation etc. can help us for student support. We can use SMS, Telegram Group as well as what's app groups to maintain our contacts and sharing some information like notice, exam schedule, scholarship notices, etc. Information and Communication Technology (ICT) enables teaching methodologies and advanced technology is being followed by the faculty members in classrooms. The academic plan with budget, lesson plan, and question banks are made available at the very beginning of the semester. The teaching aids like LCD projector are usually used in the classroom. A sufficient number of books, journals, e-journals are available in the library. The seminar hall is equipped with multimedia facilities using ICT tools. For teaching movable LCD Projection system is available in institute. The college has issued a separate PC to each department. The college has installed a separate WiFi unit for the students inside the campus. Further, it has a computer lab with an internal LAN. All staff is well familiar with all the latest ICT tools. To keep our student and teacher's pace with the changing scenario, the library has subscribed to the membership of Soul 3.0 Our library consists a good number of educational text & reference books. Social media is skillfully used by the college through what's app group and telegram group. All classes are attached with Google Classroom and links are displayed on the front page of the college website. The institution encourages teachers to attend training programs, workshops, seminars, and conferences related to ICT use or innovation in teaching-learning. Faculty members also uses QR code for Notes & E –wallpapers related with subject content.

## Guide to generate a Document QR Code

1. Type QR Code's title, for example: "My QR Code"
2. Choose template, for example: "Personal"  
*optional*
3. Upload your multimedia content, for example: document (brochures, datasheet, product catalogs, guides, ...)  
*pdf, doc/x, ppt/x, xls/x*  
*If you want show directly your content (and not an icon to download document), upload an image.*  
*You can upload multiple media*
4. Change the text of the template, edit your content: resize, drag, delete, ...
5. Click on "Save" button to generate QR Code

- Generate QR Code for video
- Generate QR Code for audio
- Generate QR Code for image
