Abstract

Now day's jobs are available on internet. Many freelancing websites are available on the internet but this is not proper and totally secure. Therefore our objective is to provide proper and secure services to the users. So that they can get a secure and proper website with the help of which they get security for their job and get their work done easily.

Therefore our main domain is getting best online jobs for the users. In this we are going to cover many different parts i.e. recruiters panel, freelancer panel, system administrator panel, support team, dispute panel, call centre help desk. In this proper guidelines related to the jobs, payment services and authentication and security for jobs will be provided and user information will be secured.

Jobs available on our website or will be secure as proper authentication and security steps will be taken for jobs and projects being available on our website.

Introduction

This project is entitled as Freelancing Web Portal. As its name suggest it is a freelancing website that provides its users with online jobs and employment easily and securely. Our website will provide employees and users with new jobs and projects of their interest. Best amount and payments will be given to the freelancers for their tasks. The payment gateways will be secure and authenticated .no chances of cyber fraud will occur and all the data related to money transaction will be private hidden and verified. The recruiters can post their projects and task. They can get their tasks done in best time best quality and less time. They can choose the best freelancer and allocate project on their own conditions. These will allow recruiters to post their projects and get them completed in best prices as well as allow the proper candidates to choose their job. It will provide easy to understand and step by step process so that any user can easily be able to use the Portal.

It is a Web Portal. Detailed information about the project as to entered. Based on that information the users can choose the project of their convenience and choice. Detailed information about every user has to be registered with the website so that proper verification and authentication of the user can be done. Personal Information of the freelancer as well as the clients will be hidden and private. Because of this security no miscommunication or misuse of the personal data will occur. The projects will be assigned according to the work category and work group. Freelancer can choose the project of their choice based on their category and group they have interest in. the freelancers can bid on the project of their choice and convenience. All other users can rank the bids of the freelancers. Based on this rank the best bid will be selected by the recruiter of that project. Recruiters can also select the best freelancer depending on their past experiences and ratings. This website will provide best and profitable jobs to the freelancers as well as recruiters. The website will take the responsibility of payments. Different payment gateways are used by the website in order to complete the payment related transactions. The freelancers and recruiters will pay according to the set milestones. The system will act as intermediate between the users for every money related transactions hence chances of dispute between client and freelancer are very less. If a dispute occurs there will be dispute panel in order to solve the respective issues. All other system related user issues will be solved by the dispute admin. Various communication techniques are used in order to communicate with the users. The users of the system can also have a group chat. The freelancer admin and recruiter or a group of the following can also have chat. Call centre and support teams are also available for helping the users at the time of any problems or issues occurring. The call centre can be contacted via a mail or a call service when a problem or emergency occurs. While registering to the website the users have to go through a standardized verification technique. All the required documents of the users being registered will be verified using the KYC technique. This makes our website secure. It is easy to understand and user friendly. This is available in the form of website.

Existing System

All the existing websites are very complicated and not secure for the users. All the information and projects available are not authenticated and verified. The payment gateways are not proper and difficult for end users to understand. Many money transaction errors and fraud cases occur. Existing system are not updated time to time and hence confusion related to completion and bidding of projects occur among freelancers. No support team or help desk are available in order to solve user problems in existing system.

There is no existing system that provides proper assistance at the time of disputes among the users. Existing systems are limited to particular categories or streams hence users of various fields and technologies don't get a single platform.

Need of System

Many freelancing websites are available for the users to earn profits from home. But unfortunately these websites are not secure and authenticated as well as do not provide proper and verified complete information to the users. Many cases of fraud occur due to lack of security and authentication. There are no proper validations and hence loss of personal and confidential information of users also occurs. Lack of international standard payment techniques are also a reason for the failure of existing websites. Lack of money transfer and payment facilities are there and hence many money transaction disputes and problems occur. Payment and task completion related disputes occur due to lack of authentication and verification. There is no help provided if a dispute or issue occurs among the users. Hence there is a need of a proper secure and authenticated system that will stop the exploitation of the users and provide a safe and secured website to them so they can complete their task and earn best profits.

Subject: Internship Offer Letter.

Dear Nirmala Ashok Mahale,

We are pleased to offer you an offline internship in **Web Development** at our **CypherSA Software's LLP**. Your internship will start from **02 Jan 2023** to **30 May 2023**. The terms and conditions of your internship with the Company are set forth below:

- Subject to your acceptance of the terms and conditions contained herein, your project and responsibilities during the Term will be determined by the supervisor assigned to you for the duration of the internship.
- Your working time will be **2hours** daily. Please be sure to share your Aadhar Card, Pan Card, and Photo with you on your first day to complete your profile.
- The internship cannot be construed as employment or an offer of employment with **CypherSA Software's LLP**. The extension of your internship will be confirmed after evaluating your performance in the upcoming term.

Please confirm your acceptance of the terms of this offer by **30 Dec 2022** failing which, we have the right to cancel the internship. We look forward to having you on our team!

Sincerely,

Shaikh Aaqib,
CEO, CypherSA Software's LLP.

1.1 Introduction

Computer plays an important role in our daily life. Anything we want we can get only in one mouse click. Speed, reliability and accuracy of the computer make it a powerful tool for different purposes. A very important and basic need of today's modern business world is the quick availability and processing of information using computer. One can easily get the type of required information within a fraction of a second. The project that I have taken is also in this category which is used in our daily life whenever we want to purchase some items we can easily get them at our home.

E-commerce (electronic commerce) is the buying and selling of goods and services, or the transmitting of funds or data, over an electronic network, primarily the internet. These business transactions occur either as business-to-business (B2B), business-to-consumer (B2C), consumer-to-consumer or consumer-to-business. The terms e-commerce and e-business are often used interchangeably. The term e-tail is also sometimes used in reference to the transactional processes for online shopping.

1.2 Objective

Developing a GUI based automated system, which will cover all the information Related to the all products which is used in our daily life. For example – Mobiles Phones, Laptops, Clothes, Books, Electronic Items and many more. So by this GUI based automated system a user want to purchase something then it only a mouse click away to purchase these products.

The e-commerce is mainly useful for ho haven't time to go shopping or for comfortably to the customers. Those are just entered into this website and bought they want at any time they can visit the web-site. Customer will choose different items like mobile, laptops, etc. This website is based on this formal. After chosen items they pay bill thorough pay pal process. Customer will get their items just sitting at home.

Abstract

'Railway Pass Management System' is a web application that will manage the records of pass which is issue by railway administrative. 'Railway Pass Management System is an automatic system which delivers data processing in very high speed in systematic manner.

This system helps railway administrative to keep records of railway passes. Before this application the manual process is used to do the process of issuing the railway pass to the traveller. This manual process requires man power and more time consuming to avoid this difficulties we implement 'Railway Pass Management System'.

INTRODUCTION

Railway Pass Management system is a web-based technology that will manage the records of pass which is issue by administrative and also help to provide online railway pass to people who need to travel daily. Railway Pass Management System is helpful to railway administrative by reducing the paper work, time consumption and makes a process of getting railway pass as a simple and fast. The Software powered by PHP assures clear and efficient services to the agency. This easy-to-operate system helps to access and modify user details, provides efficient printing facility. The software is designed to provide Reliable and error free information. The database is driven by MySQL thus providing portability.

SOFTWARE REQUIREMENTS

Database	MySQL
Server	Apache
Language	PHP
Scripting Language	JavaScript
OS	Windows
Technology	PHP

SOFTWARE AND HARDWARE SPECIFICATIONS

HARDWARE REQUIREMENTS:

Processor	:	Intel P-IV based system
Processor Speed	:	2.0. GHz
RAM	:	1GB
Hard Disk	:	40GB to 80GB

SOFTWARE REQUIREMENTS:

Database	:	MySQL
Server	:	Apache
Frontend	:	HTML
Scripting language	:	Java Script
IDE	:	Sublime
Technology	:	PHP

PROJECT OVERVIEW

Railway Pass Management system is a web-based technology that will manage the records of pass which is issue by administrative and also help to provide online railway pass to people who need to travel daily. Railway Pass Management System is helpful to railway administrative by reducing the paper work, time consumption and makes a process of getting Railway pass as a simple and fast. Railway Pass Management system we use PHP and MySQL database. This is the project which keeps records of the pass which is issue by administrative. Railway Pass Management system has two module i.e. admin and user.

Dashboard: In this sections, admin can briefly view the total number of category and how many pass will be generated in one day, yesterdays and last seven's days

Category: In this section, admin can manage category (add/update).

Passes: In this section, admin can manage pass (add/update/take print pass).

Pages: In this section, admin can update about us and contact us pages.

Enquiry: In this section, admin read the enquiries which are send by users.

Reports: In this section admin can generate pass reports between two dates.

Search: In this section, admin can search a particular pass by pass number.

Admin can also update his profile, change the password and recover the password.

ACKNOWLEDGEMENT

The internship opportunity I have with Emarks Network Marketing PVT.LTD. is a great chance for learning and professional development. Therefore, I consider myself as a very lucky individual as I was provided with an opportunity to be a part of it. I am also grateful for having a chance to meet so many wonderful people and professionals who led me through this internship period.

I express my deepest thanks to Mr. Darshan N. Kokate , for taking part in useful decision & giving necessary advices and guidance and arranged all facilities to make life easier. I choose this moment to acknowledge his contribution gratefully.

I perceive as this opportunity as a big milestone in my career development. I will strive to use gained skills and knowledge in the best possible way, and I will continue to work on their improvement, in order to attain desired career objectives. Hope to continue cooperation with all of you in the future.

Sincerely,

FEEDBACK FROM INTERNSHIP PROVIDER ORGANISATION

Dear Madam / Sir,
Please provide your valuable feedback about the performance of the student on following parameters. Your feedback will enable us to make necessary changes in the internship process. Thank you.
Coordinator- Internship Programme

Internship Programme feedback form

Sr. No.	Particulars	Details
1)	Name of the Supervisor/ Officer	: Arjun Gaikwad
2)	Department	: Income Tax And Gst
3)	Designation	: Owner
4)	Name of the Student	: Amol Anna Chavan
5)	Name of the College	: Vishwalata Arts, Commerce & Science College Bhatgaon,
6)	Roll Number	: 03
7)	Special Subject	: Cost And work accounting II & III

Part – A – Individual Ranking (Please tick the suitable checkbox)

No.	Parameter for feedback	Excellent	Very Good	Good	Satisfactory	Needs improvement
1)	Domain Knowledge	✓				
2)	Communication Skills		✓			
3)	Punctuality & Dedication		✓			
4)	Ability to work in teams			✓		
5)	Problem solving skills	✓				
6)	Quality of work done		✓			
7)	Effectiveness	✓				
8)	Efficiency			✓		
9)	Ability to take Initiative	✓				
10)	Positive attitude		✓			
11)	Appearance				✓	
12)	Using full potential at work	✓				
13)	Work habits		✓			
14)	Honesty & Integrity			✓		
15)	Creativity	✓				

Please turn over

Part B – SWOT analysis of the student (Please mention below the strengths and weaknesses of the student and the areas for improvement)

Strengths - Strong work ethic, Good communication skills, Positive attitude

Weaknesses - Difficulty with public speaking, Poor time-management skills

Areas for improvement - Building a more diverse skill set,
Improving overall academic performance

Part C – Suggestions to make the Internship programme more productive and effective.

1. Assign a mentor or supervisor to each intern who can provide guidance and feedback throughout the internship. This person should be easily accessible and willing to answer any questions the intern may have.
2. Develop a structured training plan that includes both classroom instruction and hands-on experience to help the interns acquire the necessary skills and knowledge to succeed in their roles.

Part D – Changes required in the curriculum to improve employability of students.

1. Emphasize soft skills development: Soft skills such as communication, teamwork, problem-solving, and critical thinking are essential for success in the workplace. The curriculum should include opportunities to develop and practice these skills

Please provide your rating about following aspects pertaining to your Internship Experience on the scale of 10; where 10 means strongly agree and 0 means do not agree at all.

Sr. No.	Parameter	Response
1.	The pre- internship training provided by the college was very useful	9
2.	I was properly introduced to the task assigned to me in the organisation	10
3.	I was given proper guidance to carry out my responsibility	8
4.	My supervisor / officer was very cooperative and supportive	9
5.	I found my task interesting and worth learning	10
6.	My supervisor / officer addressed to my queries/ doubts quickly	8
7.	I received due respect from my colleagues in the organisation	8
8.	The contents of the syllabus match with the practical work	9
9.	The knowledge that I gained in the college was useful to carry out internship programme in a satisfactory manner	10
10.	The Internship Programme is very useful to enrich my knowledge	10

Please give your suggestions to make the internship programme more productive and effective.

1. Clearly define the objectives and expectations of the internship programme before it begins, so that the interns understand what they will be learning and how their work will contribute to the organization's goals
2. Conduct regular evaluations of the interns' progress and provide feedback on their performance. This will help them improve and stay motivated throughout the internship.

Please give your overall feedback about your experience during the internship (Not mentioned above).

INTRODUCTION TO COMPANY'S PROFILE

INTRODUCTION TO ICICI BANK

❖ History Of ICICI

The Industrial Credit and Investment Corporation of India Limited (ICICI) was incorporated at the initiative of World Bank, the Government of India and representatives of Indian industry, with the objective of creating a development financial institution for providing medium-term and long-term project financing to Indian businesses. Mr. A. Ramaswami Mudaliar elected as the first Chairman of ICICI Limited. ICICI emerges as the major source of foreign currency loans to Indian industry. Besides funding from the World Bank and other multi-lateral agencies, ICICI was also among the first Indian companies to raise funds from international markets

1956 : ICICI declared its first dividend of 3.5%.

1958 : Mr. G. L. Mehta appointed the second Chairman of ICICI Ltd.

1960 : ICICI building at 163, Backbay Reclamation, inaugurated.

1961 : The first West German loan of DM 5 million from Kredianstalt obtained.

1967 : ICICI made its first debenture issue for Rs. 6 crore, which was oversubscribed.

1969 : The first two regional offices in Calcutta and Madras set up.

1972 : The second entity in India to set up merchant banking services. : Mr. H. T. Parekh appointed the third Chairman of ICICI.

1977 : ICICI sponsored the formation of Housing Development Finance Corporation. Managed its first equity public issue.

1978 : Mr. James Raj appointed the fourth Chairman of ICICI.

1979 : Mr. Siddharth Mehta appointed the fifth Chairman of ICICI.

1982 : 1982 : ICICI became the first ever Indian borrower to raise European Currency Units. : ICICI commences leasing business.

1984 : Mr. S. Nadkarni appointed the sixth Chairman of ICICI.

1985 : Mr. N. Vaghul appointed the seventh Chairman and Managing Director of ICICI.

1986 : ICICI became the first Indian institution to receive ADB Loans. : ICICI, along with UTI, set up Credit Rating Information Services of India Limited, India's first professional credit rating agency. : ICICI promotes Shipping Credit and Investment Company of India Limited. : The Corporation made a public issue of Swiss Franc 75 million in Switzerland, the first public issue by any Indian entity in the Swiss Capital Market.

EXECUTIVE SUMMARY

In few years Mutual Fund has emerged as a tool for ensuring one's financial wellbeing. Mutual Funds have not only contributed to the India growth story but have also helped families tap into the success of Indian Industry. As information and awareness is rising more and more people are enjoying the benefits of investing in mutual funds. The main reason the number of retail mutual fund investors remains small is that nine in ten people with incomes in India do not know that mutual funds exist. But once people are aware of mutual fund investment opportunities, the number who decide to invest in mutual funds increases to as many as one in five people. The trick for converting a person with no knowledge of mutual funds to a new Mutual Fund customer is to understand which of the potential investors are more likely to buy mutual funds and to use the right arguments in the sales process that customers will accept as important and relevant to their decision.verting a person with no knowledge of mutual funds to a new Mutual Fund customer is understand

The main reason the number of retail mutual fund investors remains small is that nine in ten people with incomes in India do not know that mutual funds exist. But once people are aware of mutual fund investment opportunities, the number who decide to invest in mutual funds increases to as many as one in five people. The trick for converting a person with no knowledge of mutual funds to a new Mutual Fund customer is to understand which of the potential investors are more likely to buy mutual funds and to use the right arguments in the sales process that customers will accept as important and relevant to their decision.
