2.3.2 Teachers use ICT enabled tools for effective teaching-learning process.

Response:

The use of recent Information Communication Technology and social media like what's app, Telegram, Youtube, Google classroom, Power Point Presentation etc. can help us for student support. We can use SMS, Telegram Group as well as what's app groups to maintain our contacts and sharing some information like notice, exam schedule, scholarship notices, etc. Information and Communication Technology (ICT) enables teaching methodologies and advanced technology is being followed by the faculty members in classrooms. The academic plan with budget, lesson plan, and question banks are made available at the very beginning of the semester. The teaching aids like LCD projector are usually used in the classroom. A sufficient number of books, journals, e-journals are available in the library. The seminar hall is equipped with multimedia facilities using ICT tools. For teaching movable LCD Projection system is available in institute. The college has issued a separate PC to each department. The college has installed a separate WiFi unit for the students inside the campus. Further, it has a computer lab with an internal LAN. All staff is well familiar with all the latest ICT tools. To keep our student and teacher's pace with the changing scenario, the library has subscribed to the membership of Soul 3.0 Our library consists a good number of educational text & reference books. Social media is skillfully used by the college through what's app group and telegram group. All classes are attached with Google Classroom and links are displayed on the front page of the college website. The institution encourages teachers to attend training programs, workshops, seminars, and conferences related to ICT use or innovation in teaching-learning. Faculty members also uses QR code for Notes & E –wallpapers related with subject content.

RECENT TRENDS IN MANAGEMENT

→ *STRESS MANAGEMENT*

→ *OUTSOURCING*

management of change

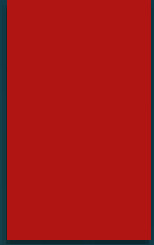

- ▶ Change management is defined as the methods and manners in which a company describes and implements change within both its internal and external processes. Significant organizational change can be challenging. It often requires many levels of cooperation and may involve different independent entities within an organization.

HOW TO IMPLIMENT CHANGES

1. Define the change.
2. Select the change management team.
3. Identify management sponsorship and secure commitment.
4. Develop implementation plan including metrics.
5. Implement the change—in stages, if possible.
6. Collect and analyze data.
7. Quantify gaps and understand resistance.
8. Modify the plan as needed and loop back to the implementation step.

▲ **Changes usually fail for human reasons:** the promoters of the change did not attend to the healthy, real and predictable reactions of normal people to disturbance of their routines.

● Meaning and causes of change

▲ Change is often said to be the only constant in one's life. This statement holds true for business organizations as well. External and internal factors almost always lead to changes in the way things happen. One of the most important tasks of managers is to implement these changes smoothly. We refer to this process as change

● Causes of change

Changes affecting an organization are basically the result of its environment. Both, external as well as internal factors play a huge role here. Hence, managers need to understand all types of changes possible under these two classifications.

EXTERNAL CAUSES	INTERNAL CAUSES
<ul style="list-style-type: none"> 1. Globalization 2. Technological advances 3. Macro economic changes 4. Legal changes 5. competitor's actions 6. Environmental factors 	<ul style="list-style-type: none"> 1. Organisational changes 2. Relocation 3. Cost cutting to improve competitiveness

MANAGEMENT OF CRISIS

▲ Crisis management is the application of strategies designed to help an organization deal with a sudden and significant negative event.

● Causes of crisis

- Poor maintenance practices
- Human error
- Bad planning
- Material failure
- Unethical or dishonest behavior
- Unresponsive culture
- Leadership failure
- Poor judgment
- Insufficient training, eg maintenance workers, designers or accountants

Crisis management objectives

Crisis management has four objectives:

- Reducing tension during the incident;
- Demonstrating corporate commitment and expertise
- Controlling the flow and accuracy of information
- Managing resources effectively

Principles of crisis management plan

1. Crisis management plan should be made in the presence of all executives & employees.
2. Every member of crisis management team must have a say in the plan irrespective of their position and authority.
3. Management should make sure that the plans are practical, realistic and solve the Purpose of saving organization's reputation and name in the society.
4. Be responsive when working with the media.
5. Be of the mindset that "perception is reality." It does not matter who is right or wrong.
6. Disclose all bad news upfront.
7. Make sure your staff hear any news from you directly (before the media).

TOTAL QUALITY MANAGEMENT

▲ Total Quality management is a management system for determining the highest quality of product hardware. It is centred on the customer and the desire to satisfy them and enhance the company's reputation

● Concept of total quality management

- Total quality management (TQM) is an ongoing process of detecting and reducing or eliminating errors.
- It is used to streamline supply chain management, improve customer service, and ensure that employees are trained.
- The focus is to improve the quality of an organization's outputs, including goods and services, through the continual improvement of internal practices.
- Total quality management aims to hold all parties involved in the production process accountable for the overall quality of the final product or service.
- There are often eight guiding principles to TQM that range from focusing on customers, continually improving, and adhering to processes.

ELEMENTS OF TOTAL QUALITY MANAGEMENT

- 1.ETHICS
- 2.INTEGRITY
- 3.TRUST
- 4.TRAINING
- 5.TEAMWORK
- 6.LEADERSHIP
- 7.RECOGNITION
- 8.COMMUNICATION

- Commitment and Understanding from Employees. ...
- Quality Improvement Culture. ...
- Continuous Improvement in Process. ...
- Focus on Customer Requirements. ...
- Effective Control.

STRESS

MANAGEMENT

▲ Work stress is recognized worldwide as a major challenge to a worker's health and the healthiness of their organization.

Stress is a normal occurrence in our lives, but it can be harmful when it becomes chronic stress management is the practice of managing stress so that it doesn't negatively affect your health, productivity and relationship.

● Solutions

- getting regular physical activity.
- keeping a sense of humor.
- Spending time with family and friends.
- setting a side time for hobbies , such as reading a book or listening to music.

महत्त्वाच्या सूचना-

1) सर्व विद्यार्थ्यांना सुचित करण्यात येते की सर्व विद्यार्थ्यांनी 31 डिसेंबर 2022 पर्यंत महाविद्यालयीन फी भरणे अपेक्षित होते काही विद्यार्थ्यांनी महाविद्यालयास सहकार्य केले आहे, परंतु अजूनही बरेचसे विद्यार्थी फी भरण्यास टाळाटाळ करत आहेत हे योग्य नसून दंडात्मक कारवाई होऊ शकते.

2) गव्हर्नमेंट स्कॉलरशिप फॉर्म भरण्यासाठी देखील विद्यार्थ्यांना वारंवार सूचना देऊन बरेच विद्यार्थी अकारण टाळाटाळ करत आहेत. स्कॉलरशिप फॉर्म महाविद्यालयाने दिलेल्या वेळेत न भरल्यास जनरल कॅटेगिरी ची फी भरावी लागेल याची नोंद घ्यावी.

3)सर्व प्रकारची कार्यालयीन कामे विद्यार्थ्यांनी वेळेत करावी, वेळेवर गर्दी करणे टाळावे. जेणेकरून विद्यार्थ्यांचा अमूल्य वेळ वाया जाणार नाही.
