Nirbhay Kanya Abhiyan Reports
(2018-19)

In the academic year 2018-19 this scheme was sanctioned as per letter with reference number 2018-19 / 509 dated on 26 Oct 2018. This scheme is only meant for girl students.

Nirbhay Kanya Abhiyan session was organized on 12 Dec. 2018. The first session was inaugurated by Mr. Nanasaheb Nagdare (Asst. Police Inspector, Yeola) in the presence of principal Kadam D.K.

In first session Mr. Nanasaheb Nagdare guided girls regarding Women Safety & Awareness (Mahila Suraksha and Janjagruti).

Second session was organized on 09/02/2019, all girls were guided by Adv. Kailas Salmuthe (Yeola Court, Yeola) on Women Acts & Rules (Mahilavishayi Kayade Ani Niyam). He appealed students to increase confidence.

Third session was organized on 18/02/2019 by the presence of Mr. Shrikant Waghchaure (Karate Trainer). He guided girls on Self Defense and told how to take care of yourself and also shows demo on Karate.

We are thankful to Savitribai Phule Pune University for giving us permission for implementing of this scheme for girls.

Program 1:-Women Protection & Awareness

This program was organized in 12 December 2018 on 10.00 am. The program was first started with Saraswati Puja. After that, the guests were felicitated by giving saplings without making a big fuss. After that, Hon'ble Nanasaheb Nagdare, while giving valuable advice to the college girls, said that if anyone is doing injustice to you, so the need of the hour is to be strong and resist injustice without enduring it. It is necessary to come forward. The law is always ready to protect you. If you find any kind of abuse, harassment, inappropriate behavior on you or around you, you need to stand up against it in time. Through the class teacher, through the principal, the complaint can be lodged with the women's grievance committee and through the police administration. In that fear but the one who bears injustice is more guilty than the one who does injustice. There is a big difference between real life in a movie or a series and it is very important to think about it and accept it. This was stated by Police Chief Nanasaheb Nagdare.

After that, Mr. Sandeep Patil interacted with the students and gave detailed information on important topics such as friendship on the internet, harassment by constant anonymous phone calls, obstruction in the middle of the road, obscene sarcasm by some naughty students, stalking to the house. He asserted that he would be given immediate and appropriate help through the Police Mitra app, as well as the prompt action of the police station. Also resolved the young woman's doubts through question and answer.

Patil interacted freely with the students by contacting them on the internet, constantly harassing them by making anonymous phone calls, obstructing them in the middle of the road, making obscene remarks by some naughty students, chasing them home. He gave detailed discussion information on such an important factor. He asserted that you will be given immediate and appropriate help through the Police Mitra app, as well as the prompt action of the police station. Also resolved the young woman's doubts through question and answer.

Program 2:-Women Acts & Rules

Savitribai Phule Pune University Student Welfare Board jointly organized Nirbhaya Kanya Abhiyan at Vishwalata College Arts, Commerce and Science . Mr. Kailas Salmuthe, a reputed Advocate from Yeola, was the chief guide for the lecture. This program organized on 9Th Feb. 2019. First of all, lamp lighting and Saraswati Pujan were performed by the dignitaries.

The introductory Student Development officer Santosh Dhole, said that from time to time, we are implementing various initiatives at the organizational level for the safety of the youth. After this, while starting the lecture, Ms. Salmuthe explained the background of the Women's Act and said that in 1937, women got their first rights. The Government of Maharashtra amended Section 6 in 1994 to give women equal rights with men and equal rights to ancestral real estate. It has the power to lodge a complaint under Section 498A of the Dowry Sacrifice Act, 1961. At the same time, as per the Domestic Violence Act of 2005, every effort has been made to protect women on the basis of legal norms. The lecturers did not forget to say that it should be done properly. Meanwhile, Salmuthe resolved the doubts of the youth.

The program was moderated by Miss Ashwini Pawar and Assistant Program Officer Ramesh Kakade thanked the dignitaries.

**Shri Sairaj Shikshan Pratisthan's
Vishwalata Art's, Commerce & Science College, Bhatgaon (Yeola)
Commerce Department
Industrial Visit to Sula Vineyards, Nashik
Report**

Shri Sairaj Shikshan Pratisthan's, Vishwalata Arts, Commerce & Science College Bhatgaon Commerce Department had organized an Industrial Visit for Commerce Students on the 21st Nov 2018 to Sula Vineyards, Nashik. 36 students visited the industry.

Students reported to college at 7.00 am where attendance was taken and all the students boarded the bus at 8.00 am. Breakfast and transportation was provided by the college. The journey was for 3 hours to Nashik and all the students will reach Sula Vineyards at 11.00 am.

Sula Vineyards in Nashik is India's most famous and most accessible winery. From humble beginnings in 1997, Sula Vineyards has admirably developed into a world-class winery with boutique guest accommodations. The winery is open to visitors, who can enjoy a tour, tastings, courses, and fun events.

The students understood the process of Wine-making by taking a half an hour tour to Sula's winery, which is equipped with modern machines and solar-powered lights, and where one would find how the white and red wines are created.

The students were guided by a Sula executive who said that its wine-making team samples the grapes during the harvest season and intricately checks their flavor as well as sugar and acid levels. Once the grapes have been harvested and have reached the winery, the processing method used differs depending on whether a white, red or rose wine is to be made.

"When making a white wine, the stems, skins and seeds of the grapes are discarded and only the juice is used. The grapes are loaded into an elevator which carries the grapes up to a pneumatic balloon press. In the press, the grapes are

pressed, and the juice is extracted. This entire process is called Whole Bunch pressing. The juice is pumped into a tank and fermentation is affected. However, the entire grape berry is used to make red wine because the color is in the skins of the grapes." he added.

The grapes are passed through a machine called Crusher-Distemper which separates the berries from the stems and also partially crushes the berries. The separated berries are then pumped into a tank with the help of a must pump where fermentation is carried out. The process of fermentation is integral to wine making. "Fermentation is the process of converting the sugar of the grapes to alcohol via the action of yeast. When making white and rose wine, in order to preserve the delicate aromas and flavors of the wines, fermentation is carried out at relatively low temperature of 12-14 degree Celsius and last for a period of about three weeks." he said.

In the case of red wines, the fermentation is carried out at warmer temperatures of 28-32 degree Celsius in order to extract the color and tannin from the skin. After understanding the process of wine-making, the students were taken to the storage where Sula stored its wine in huge barrels.

The Visit helped the students in understanding the process of wine-making and also the understanding of its supply chain.

Visit report

A village on the outskirts of Aurangabad can give lessons on water distribution and civic management to the city administration. After getting round the clock water supply, Patoda villagers are set to get hot water free of cost thanks to the 12 units of solar water heater under installation.

The 3,350 residents of this tiny village located barely 15 km from the city are a happy lot. Though living in the parched Marathwada region, they don't have to face the water scarcity in the heat of the scorching summer.

Each household in the village gets water through the day, the supply monitored through installed water meters. With having the pay water tax based on actual consumption, the village gram panchayat has posted 100% water and property tax recovery over the past few years. This regular and sufficient income has allowed the gram panchayat to introduce innovative measures for the benefit of the villagers. The latest is the endeavour to set up 12 solar water heaters to supply hot water. The panchayat has already completed installation of six units of solar water heater and the work on other six units is going on.

Visit report

A village on the outskirts of Aurangabad can give lessons on water distribution and civic management to the city administration. After getting round the clock water supply, Patoda villagers are set to get hot water free of cost thanks to the 12 units of solar water heater under installation.

The 3,350 residents of this tiny village located barely 15 km from the city are a happy lot. Though living in the parched Marathwada region, they don't have to face the water scarcity in the heat of the scorching summer.

Each household in the village gets water through the day, the supply monitored through installed water meters. With having the pay water tax based on actual consumption, the village gram panchayat has posted 100% water and property tax recovery over the past few years. This regular and sufficient income has allowed the gram panchayat to introduce innovative measures for the benefit of the villagers. The latest is the endeavour to set up 12 solar water heaters to supply hot water. The panchayat has already completed installation of six units of solar water heater and the work on other six units is going on.

Water Analysis(14/12/2018 & 22/12/2018):

Water quality testing is important because it identifies contaminants and prevents water-borne diseases. Essentially, water quality testing makes sure that water is safe and meets local and international water standards. This type of testing can be completed using water sampling techniques and using technology to estimate the amount and level of chemicals. All water for human and animal use should be tested for safety. In addition to household water, recreational and agricultural water should also be tested.

Water analysis report

Subject: Testing of the water of poultry farm from nearby villages.

We have successfully organised "Water Analysis" awareness program under the science department Activity for the faculty/staff/student from 14/12/2018 to 22/12/2018(two day). The details are given Below. The more detailed (document, photograph, certificates etc.) enclosed herewith.

Initially we create group of student of bsc. Where each group consists of maximum 38 student. there were some of the teachers who help student and guide in analysing the subject.

In this survey we plan a visit to nearby villages of your like balhegaon, nagde, matulthan babhulgaon and mukhed ,etc we tested the water sample respective of poultry farm. It resulted that the water there where was not suitable for drinking purpose of bird. We concluded and suggested pharma that this should filter the water before use, It will prove beneficial for entire well beginning.

On 14th of dec we firstly visited balhegaon village and noted the no. Of poultry in that area and so on.... Then on next day we collected a water sample and tested them.

When we come on the result we noticed that this water sample was not usable for blrd . Because the parameter pH which we check were imbalance.

pH was slightly acidic i.e 5.9 which was below limit, hardness of water and percentage of chlorine which is below 0.2.

The same survey was carried out by us in other villages in the span of 14th of dec to 22nd of dec.

Water analysis project was arranged for the purpose to check the water quality in the poultry farm of ruler area.

Farmers of the respective areas where blissful to the student for the water testing and give profitable result.

Thank you

BACTERIOLOGICAL EXAMINATION OF WATER

DETERMINATION OF RESIDUAL CHLORINE IN WATER (O.T. TEST)

REAGENT : 1) ORTHO-TOLUDINE REAGENT (O.T.)

PROCEDURE: TAKE 10 ML. (APPROX.) OF WATER SAMPLE IN A TEST TUBE. TO THIS SAMPLE ADD 0.1 ML OF O-TOLUDINE REAGENT.

OBSERVATION:

- 1) IF THE SAMPLE WATER TURNS YELLOW
- IT INDICATES PRESENCE OF FREE CHLORINE (RESIDUAL CHLORINE).
- 2) IF NO COLOUR CHANGE IS OBSERVED
- IT INDICATES SAMPLE WATER DO NOT CONTAIN A FREE CHLORINE (RESIDUAL CHLORINE).

CALCULATION: IF THE SAMPLE WATER TURNS YELLOW, COMPARE COLOUR PRODUCED WITH STANDARD DISC WHICH WILL GIVE DIRECT PPM OF FREE CHLORINE PRESENT.

I.S. LIMIT : MINIMUM 0.2 PPM. AT USER'S END.

Water Analysis Report

We have successfully organized "Water Analysis" will be conducted at Bhatgaon as on 22 Jan 2020 on 11.00 am awareness program under the science department Activity for the faculty/staff/student from 22/01/2020. The details are given below. The more detailed (document, photograph, certificates etc.) enclosed herewith.

Initially we create a group of students of Bsc. Where each group consists of a maximum student. There were some of the teachers who help students and guide in analyzing the subject. In this programme 35 students participated and they visited near about 15 farmers.

Result we noticed that this water sample was not usable for birds. Because the parameter pH which we checked were imbalanced. pH was slightly acidic i.e. 5.9 which was below limit, hardness of water and percentage of chlorine which is below 0.2.

Water analysis project was arranged for the purpose to check the water quality in the poultry farm of rural areas. Farmers of the respective areas were blissful to the students for the water testing and gave profitable results.

Guest Lecture on Goods & Service Tax
Report

Shri Sairaj shikshan Pratishthan's, Vishwakata Arts, Commerce & Science College Bhatgaon Commerce Department had organized a Guest Lecturer on Goods & Service Tax i.e GST for the students of First Year, Second Year & Third Year Bachelor of Commerce in Hall No 1 as on 12th Feb 2019.

The speaker for the lecture was C.A. Nilesh Bormare, who is presently working as a Chartered Accountant over the past 5 years. Prof. Kadant D.K. Principal of Vishwakata College felicitated C.A. Nilesh Bormare for the Guest Lecture. Prof. Sonawane M.S, Lecturer in Commerce Department introduced the speaker and the topic of the lecture to the students.

The session begins with a brief preface to the implementation of GST. In his talk, the Speaker while explaining the evolution of GST mentioned that France was the First Country to implement GST in 1954. There are more than 150 countries which have implemented GST or VAT. In few countries, VAT is alternative for GST which is a destination based tax levied on the consumption of goods & services.

Explaining its introduction in India the speaker said that, in India, GST was First Conceptualized and given a go ahead in 1999 during a meeting between the then Prime Minister Atal Bihari Vajpayee and his economic advisory panel which include three former RBI Governors J.G. Patel, Bimal Jafal and C.Rangarajan. In 2000, the Vajpayee government started a full-fledged discussion on GST by Setting up an Expert Panel. In 2006, Congress Government Finance Minister P. Chidambaram in his budget speech set an ambitious 1st April 2010 as the deadline for GST implementation. Later Congress could not implement it due to the opposition from other political parties. Now, 2017, during the BJP rule, it has finally been implemented throughout India.

He went on to explain that the Indian System of taxation of Goods & Services is characterized by cascading discretionary tax on production of Goods & services which leads to mis- allocation of resources, hampering productivity and slower economic growth.

He also explained the amalgamation of the various indirect taxes into one tax. Other than the tax slabs, he also elucidated upon the breakup GST into CGST, SGST and IGST. This was explained elaborately with examples to substantiate it. He also stated that GST Council sets the

exemption there should for tax at Rs. 20 Lakhs while it was Rs. 10 Lakhs in the northeast. He also spoke about input tax credit and the composition Scheme under the GST Law.

Further, he stated that the GST is governed by GST council whose chairman is the Finance Minister of India. Under GST Goods & Services are taxed at the following rates, 0%, 5%, 12%, 18% and 28%.

During the session, describing how ideal tax system function he said that taxes are collected at various stage of production such as manufacturing, supply, wholesale, retail and finally at consumption based on the add on value at each stage of the value chain.

Mr. C.A Nitesh Bhatnare session broke down what may seem like a complex topic into a more understandable and simple concept for the participate students as well teacher. It was followed by the interaction with the students where there queries were addressed.

The session was very useful for the students as it helped them expand their knowledge of the GST and understand how to make the best use of it. The session concluded with Prof. Akshay Bale and Prof. Amol Dhandre proposing the vote of thanks.

To,

Prof. Jain N. P.,

Assistant Professor,

K.K.H.A.Arts,S.M.G.L.Commerce & S.P.H.J. Science College,

Chandwad.

Resp.Sir,

On behalf of our institute, I am very pleased to have the honor of inviting you to our institute for a guest lecture. We expect you to deliver a lecture on **"Recession in India after Indian Banknote demonetization & GST"**. We have arranged this lecture for the second year and third year Commerce students on **Wednesday, 04th Sept. 2019** at 11.00 am.

Please accept our invitation and give your auspicious presence for the same.

Thanking you,
