7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

Waste Management steps including:

- a) Solid waste management**
- b) Liquid waste management**
- c) E-waste management**

Solid waste management:

1. The Green-colored dustbins are meant for wet and biodegradable wastes.
2. Pink dustbins are meant for disposal of plastic wrappers and non-biodegradable wastes.
3. Also meant for papers and glass bottles.
4. Cleaning or emptying of the dustbins is being done on a regular basis at 10:30 to 11:30am and 4:00 pm every day.

Liquid waste management:

Liquid waste from the points of generation like the canteen and toilet is segregated and disinfected and let out as effluent into a common drainage facility. This liquid waste effluent could trigger various infections and can cause disease outbreaks among the people, if they end up in the some local water bodies like lakes, rivers etc., So sensing this danger, we own Effluent Treatment Plants (ETPs), for treating the waste water that can eventually be reused.

E-waste management:

In Vishwalata College, there is a simple process of e-waste management .At the end-of computers useful life, they are collected from different locations of the campus by designated technicians and sent to Vishwlata college computer center. At the center, the computers are sometimes repaired and some are likely not repaired due to the level of damage. The un-repaired are inspected by the authorities and it's open for disposal through contractors or vendors, who pay certain amount of money to dispose them. Institute has a Computer lab with all Facilities Like Wi-Fi , Lan CPU, Keyboard Stabilizer, Tonner etc.. these computer lab Scrap Material gives Vajir Yuva Foundation, Mirgaon Tal: Sinner Dist: Nashik.
